

# Rene D. Francolini

---

Bigelow Laboratory for Ocean Sciences • 60 Bigelow Drive • East Boothbay, Maine 04544  
Darling Marine Center • University of Maine • 193 Clarks Cove Road • Walpole, Maine 04573  
[rfrancolini@bigelow.org](mailto:rfrancolini@bigelow.org) • (973) 303-5203

## EDUCATION:

**Ph.D., Marine Biology** 2020-2025 (Expected)  
University of Maine, Darling Marine Center, Walpole, ME  
Bigelow Laboratory for Ocean Sciences, Boothbay, ME  
Advisors: Dr. Doug Rasher & Dr. Damian Brady

**M.S., Computational Biology** 2015-2016  
Carnegie Mellon University, Pittsburgh, PA  
Thesis: *Analysis of ChIP-Seq Data to Determine Functional Uses of Primary and Secondary Tbrain Motifs*  
Advisor: Dr. Veronica Hinman

**B.S., Biological Sciences** 2011-2015  
Carnegie Mellon University, Pittsburgh, PA

## RESEARCH INTERESTS:

Ecosystem Biology; Molecular Ecology; Biodiversity of Marine Organisms;  
Metagenomics; Population Dynamics; Bioinformatics; Trophic Cascades;  
Environmental Impacts; Climate Change Response; Conservation Policy

## RESEARCH:

**Graduate Research Assistant** July 2020 – Current  
*Bigelow Laboratory for Ocean Sciences & Darling Marine Center*  
Investigating the impact of climate change on the Gulf of Maine kelp forests, forecasting the future of the kelp forest community, genetic variation and associated biodiversity.  
Advisors: Dr. Doug Rasher & Dr. Damian Brady

**Research Assistant III: Govindarajan Laboratory** December 2018 – June 2020  
**Research Assistant II: Govindarajan Laboratory** June 2018 – December 2018  
*Woods Hole Oceanographic Institution*  
Developed protocols to use environmental DNA to identify and build a library of eukaryotic animals inhabiting the mesopelagic zone of the ocean. Participated in research expeditions to collect and process eDNA and zooplankton samples. Collaborated with engineers to design large scale *in situ* eDNA sampling instrument.  
Advisor: Dr. Annette Govindarajan

**Research Assistant III: Stegeman Laboratory** December 2018 – November 2019  
**Research Assistant II: Stegeman Laboratory** February 2017 – December 2018  
*Woods Hole Oceanographic Institution*  
Studied the effects of environmental toxicants, particularly PCBs, using zebrafish and killifish as model organisms. Assembled marine animal genomes with Oxford Nanopore Technology. Generated and maintained multiple wildtype and CRISPR zebrafish lines. Analyzed the effects of pharmaceuticals and sewage on oysters.  
Advisor: Dr. Jed Goldstone

**Master's Thesis Research** January 2015 – May 2016  
*Carnegie Mellon University*  
Utilized computational methods to analyze raw ChIP-Seq data and identify binding locations of transcription factor Tbrain in *P. miniata* and *S. purpuratus* to determine evolutionary significance of presence of secondary binding site in orthologous genes.  
Advisor: Dr. Veronica Hinman

**Undergraduate Research Intern** Summer 2014  
*Hawaii Institute of Marine Biology, University of Hawaii - Manoa*  
Investigated the relationship of *Montipora* coral and algae metabolomics in abnormal temperature zones through NMR analysis of metabolite extractions. Examined spawning patterns and growth of *Montipora* coral in varying carbon dioxide conditions.  
Advisor: Dr. Ruth Gates

**Andes to Amazon Study Abroad** Summer 2013  
*Ceiba Foundation for Tropical Conservation*  
Conducted field work in El Pahuma cloud forest, Tiputini Biodiversity Station, and Lalo Loor Dry Forest Ecological Station in Ecuador, focusing on zoology and botany of wet and dry forest ecosystems.  
Advisor: Dr. Joe Meisel

**Phage Genomics Research** 2011-2012  
*Carnegie Mellon University*  
Isolated, characterized, and analyzed unique bacteriophages using molecular and computational techniques including an Ion Torrent Personal Genome Machine.  
Advisors: Dr. Maggie Braun & Dr. John Jarvik

**Summer Research Intern** 2007-2012  
*Wellfleet Bay Wildlife Sanctuary, Massachusetts Audubon Society*  
Conducted juvenile horseshoe crab surveys, maintained diamondback terrapin nest protection enclosures, and aided in oyster reef spawning and restoration projects.  
Advisor: Mark Faherty

TEACHING  
EXPERIENCE:

**Teaching Assistant:**  
**Experimental Biochemistry** Spring 2015  
**Experimental Techniques in Molecular Biology and Genetics** Fall 2014  
*Carnegie Mellon University*  
Led review and extension sessions for students to ensure understanding of difficult material and graded problem sets, quizzes, and tests for the class.  
Advisor: Dr. Carrie Doonan

**Teacher: Research Experience in Marine Sciences** Summer 2014  
*Hawaii Institute of Marine Biology*  
Taught 20 high school students marine science, experimental design, how to write lab reports, and presentation skills. Guided student group projects on topics including jellyfish zooxanthellae and snapping shrimp regeneration.  
Advisor: Dr. Malia Rivera

**Day Camp Instructor: Natural History Day Camp** 2011-2013  
*Wellfleet Bay Wildlife Sanctuary, Massachusetts Audubon Society*  
Arranged and taught lessons on migration, natural habitats, salt marshes, native organisms, and coastal waterways for students age 4-15 years old. Led and managed educational tours for families focused on the environment & conservation of Cape Cod.

#### PRESENTATIONS:

**How are Gulf of Maine Kelp Forests Responding to Climate Change?** October 26, 2020. Maine EPSCoR Maine-eDNA All-Hands Meeting. Maine. Virtual Talk.

**On Podcasting & Communicating Science.** March 4, 2020. Sea Education Association. Invited Talk.

**LabOratory Podcast: Documenting Personal Narratives of Scientific Significance.** February 17, 2020. Ocean Sciences. San Diego. eLightening Session.

#### OUTREACH:

<b>Judge</b> , Falmouth Academy Science Fair	February 2021
<b>Host and Producer</b> , LabOratory Podcast	January 2020 – Current
<b>Interviewee</b> , Kai Talks Science, Falmouth Community TV	February 2020
<b>Volunteer</b> , Woods Hole Science Stroll	August 2018
<b>Instructor</b> , East Falmouth Elementary School 3 <sup>rd</sup> Grade Field Trip	June 2018
<b>Judge</b> , Falmouth Academy Science Fair	February 2018
<b>Tutor</b> , Falmouth Volunteers in Public Schools High School	2017-2018
<b>Volunteer</b> , Woods Hole Science Stroll	August 2017
<b>Instructor</b> , East Falmouth Elementary School 3 <sup>rd</sup> Grade Field Trip	June 2017
<b>Instructor</b> , Leonard Gelfand Center Biological Sciences Outreach	2012-2016
<b>Instructor</b> , Pennsylvania Junior Academy of Science Workshops	2011-2016

#### MENTORING:

Katie Pell, WHOI Undergraduate Guest Student, 2020  
Sarah Stover, WHOI Undergraduate Guest Student, 2019  
Nicole Suren, WHOI Summer Student Fellow, 2018

#### SPECIAL COURSEWORK:

<b>OceanHackWeek</b> <i>University of Washington</i>	August 2020
<b>Strategies &amp; Techniques for Analyzing Microbial Populations and Structures</b> <i>Marine Biological Laboratory</i>	August 2018
<b>Oxford Nanopore Training</b> <i>Woods Hole Oceanographic Institution</i>	December 2017

#### CRUISE

#### PARTICIPATION:

**R/V Armstrong**, Woods Hole, March 10 – March 16, 2020  
**R/V Manta**, Texas, September 21 – September 27, 2019  
**R/V Henry B. Bigelow**, Rhode Island, July 24 – August 8, 2019  
**S.S.V. Corwith Cramer**, Visiting Scientist, Bermuda to NYC, April 22 – May 2, 2019

#### PROFESSIONAL AFFILIATIONS:

**Society for Women in Marine Science (SWMS)**

#### AWARDS:

<b>NSF-REU Honorable Mention</b>	April 2020
<b>WHOI Technical Staff Training &amp; Development Grant</b>	March 2018
<b>Academic Achievement Scholarship</b>	2015-2016
<b>CMU Senior Leadership Recognition</b>	May 2015
<b>Biology Student Advisory Council Service Award</b>	May 2015
<b>Alpha Phi Omega Distinguished Service Key</b>	May 2015
<b>CMU Dean's List</b>	May 2014
<b>CMU Dean's List with Honors</b>	December 2013
<b>Tartans Abroad Scholarship</b>	Summer 2013
